LEGISLATIVE ASSEMBLY. THE COUNCIL.

THE Council met yesterday at 8 p. m., Mr. Willem Slekney (President) in the chair. Prayer by Rev. G. A. Hall.

Mr. Thömpson suggested, as the Council had received no data to work upon, that it take up the codification of the laws, as prepared and submitted by the commission, and act upon them, in order that a much progress could be made with them as possible. He thought it unnecessary to der that as much progress could be made with them as possible. He thought it unnecessary to give the report an entire reading at the present time, and recommended that it be referred to the Judiciary Committee when appointed.

Mr. Guilek thought as many of the laws were already in force that they would not require three readings, as provided for by the organic act, in introducing new bills, and much time that would be consumed in this manner could be saved.

Mr. Browne introduced a resolution, which was agreed to, authorising the president to procure the provided that this was his pisness and had to do something to apport his family; that he had been injured in Union Sam's service while working at the Copital and was unable to work at his pointed, was then adopted.

Mr. Brooks stated that the committee would report at the next meeting of the Council, but that it mattered little about it, as the lower house had spoken in opposition to adjournment and it was well known that the Council could no adjourn without their co-operation.

Mr. Editor: The statement made in your issue of this date, of the affair between Mr. C. B. Vict. sery and Mr. L. Thomas, Jr., and your comments thereon, is so unfair and unjust towards Mr. Vickery that I cannot forbear this protest.

I am not disposed to meddle in family quarrels and would not in this instance, but in the interest of justice and fair play.

Mr. Thomas doublies feels himself aggrieved, and if the provocation he claimed before Judge Snell had been real, most perions would have justified him. But he has been that eggregiously imposed upon. Mr. Vickery has it in his power to prove himself clear of the imputation cast upon his honor, and in due time will show it, it will be estisiscivity shown that the person upon whose testimony this whole matter rests, is, to say the least, mistaken in his statements.

INVESTING MONEY.

The large fortunes accumulated during this brief life, which give in old age a competency and relieve the mind from constant anxiety concerning the future, come from the careful investment of the future, come from the careful investment of daily of monthly savings at a fair rate of interest. When this is once commenced, and interest is realized, the income compounds itself, and within a very short time the amount grows to enormous figures. Wild and uncertain speculation in stocks, or the purchase at low rates of bonds of doubtful character, are in the end unprofitable. Since the principle is catablished, the question arises, what is a certain security which may be raited on for income? ANIMATED MACHINERY.

Our bodies are like time-pieces. When they run down we must wind them up; otherwise they will stop forever. What key will best perform this work of renovation? Experence has shown that it can be accomplished more rapidly and certainly by a course of Hestetter's Stomach Bitter's than by any other article under the sun. That searching yet harmless agent escus to reach every spring, and lover, and wheel, so to speak, of the living machine. The folkand nerves are braced, the torpid live is sirred, the weak stomach is atrengthesed, the disordered bowels are regulated, the lorst appetite is restored, the circle of mind is trightened—in short, the whole mer system jis stimulated into healthy action. New life is put into every falling fore, and physical regeneration engine. This is the testimony of thousands. In every city, town, and village of the Union living proofs of its efficacy may be found.

Dooley's Yeast Powder stands pre-eminent in market as being the only baking powder that is free from injurious substances. Not only this, but each package contains the full quantity represented, while the quality is far superior to all others. Booley's Yeast Powder williproduce from twenty-five to fifty per cent more good bread, rolls, biscuit, pastry, bo, than those of other manufacture, while it is always convenient to have in the house, and is reliable and economical. If you have not tried it, ask for it at your grocer's, and take no other.
